Your audit is scheduled and the clock is ticking. We embed with your team to prepare evidence, manage auditor requests, and ensure nothing falls through the cracks. From readiness review to final report, we're in the trenches with you.

What's Included

- ✓ **Pre-Audit Readiness Review**
Final gap check before auditors arrive
- ✓ **Evidence Preparation**
Help gathering, organizing, and formatting audit evidence
- ✓ **Auditor Liaison**
Manage requests, clarify questions, and keep things on track
- ✓ **Issue Resolution Support**
Address findings quickly to avoid delays or exceptions

What You'll Walk Away With

- Organized evidence repository ready for auditor review
- Faster audit cycles with fewer back-and-forth requests
- Reduced risk of exceptions or qualified opinions
- Less burden on your internal team during crunch time
- Clean audit report you can share with confidence

Ideal For

- Companies in active audit cycles needing extra bandwidth
- Teams going through their first formal compliance audit
- Organizations with lean security teams and tight deadlines
- Businesses that received findings and need remediation help
